Super High Functioning Radical Piro Water

The spring which is Japan top three water and Spring water list of top 100 natural waters of Japan js added Super- High functionality.

Super high functioning radical water is the result of taking purest of spring waters from near Yoro- falls (known as one of japan's top three waters and awarded distinction on the 1985 list of top 100 natural waters of japan as decided by the Ministry of the environment) and applying cutting edge technology to make a product that excels in applications for both health and beauty. In the year 717, approximately 1300 years ago, empress Gensho had heard that there was a water with wide-ranging curative properties found in the land of Mino, home of Yoro Falls and Yoro spring water. Upon visiting and experiencing the water for herself, empress Gensho said, "here are good springs which provide tasty water and beautiful springs, and so nourish the old. Perhaps it is the spirits of the waters. I hereby give amnesty under heaven and change years 3 of the Reiki Era to year 1 of the Yoro Era" (adapted from the Nihon Shoki), thereby naming that era of Japan history in honor of the mystic Yoro water.

Dear president, Tsutomu Yokoi

The “water” created by you has helped us celebrate New Year happily in the eco house. So, I am holding this pen in my hand to thank you. My husband was suffering from mild cardiac (myocardia) infection but was healed and discharged from the hospital. Even after discharge, the thought of cardiac infection kept haunting us for the rest of our lives. After that, on June this year, bladder cancer was confirmed by the hospital authority when he was readmitted to the hospital because blood was seen in urine sample. The whole world seemed dark after that. I could not tell anyone about my husband’s cancer, so, I started treatment at home, while we kept visiting hospital at the same time. But, I kept giving my husband the water that we took from the President. During the month of December, we went to the hospital to get everything examined, we found that my husband’s bladder cancer was completely cured and even cardiac infection was cured as well. My heart often kept repeating Oh my God the cancer is cured. The diseases were cured only because of water and nothing else. I told my relatives and friends about all that has happened. They were more than happy to hear the good news. They exclaimed if the water is the holy water given by the God himself. I thanked Mr. President. This was a matter of great happiness for our family. We are all very happy to get this opportunity to celebrate the New Year with so much happiness. Once again, I would like to thank Mr. President.....

I am sending you a simple impression statement. I suffer from shoulder stiffness which I feel is because of the condition of eyes and poor blood circulation. But, since I started using the water, I feel there is no stiffness in my shoulder. I always felt chills in my hands and legs but with this water I feel that my hands and legs remain warm. When I did aerobics drinking I used this water, I felt I sweated more than usual. I feel this water is also good for playing sports.

Michiko Yasuda

We would like to express our sincere thanks to you in this summer as piro water has finally arrived today. Once again I express my sincere gratitude. Finally, mother has been able to eat some rice and other things as well. So, I used the water to cook rice in it. And with this I feel she has been recovering pretty soon. Also she can eat porridge, which she finds delicious. I think it is the consequence of the good things as well. So, it is to be thanked duly. Thank you so much. I seek for your guidance in the future too,.

Thank you for your help. Thank you for your much attention on the busy day of Saturday. I also thank you for Piro Water. I have always had a problem of swelling foot when I am tired. So I have to stretch my foots after taking a bath. When it is bad, the pain lasts for next morning as well nevertheless. But as I started drinking Piro Water since last three weeks, it is improving. I think that my blood circulation is getting well. Originally, I suffer from sensitivity to cold temperatures because of poor blood circulation. I am worried about the winter season because of the frostbite of the foot and hand. But I would like to keep drinking Piro Water to improve my health.

2~3days after using the water on my face, during the morning cleansing, I felt a change in my appearance. My skin has become very smooth. I have been using the water for about six months in the same way to feel the same enjoyment every day. The condition of my skin is improving daily and the occurrence of pimples has reduced too. On the other hand, now without having to be ashamed I can go out though my complexion was so bad before. I think that I can take more confidence on my skin. During make up and even after it when I wipe or wash my face, i feel that my skin has become a lot smoother and feel so good about it . I am very pleased with the feeling that this valuable water has given me. Nowadays, I do not use any other lotion but this water only. I am surprised again when I drink this water. The next day after that unseasonable laxation, it came within the range of seasonable shape without any difficulty. Oh what had happened. I felt like asking my own body. I regretted not having used this water earlier. After that day, I have been using this important water for my face and the whole body. I feel that it has been cleaning up everything. I feel as if it has cleaned even my heart in a mysterious way. It refreshed the whole body and mind. I feel as if new buds have come up to rejuvenate everything. I am that is why very thankful to the water. When I hear words like bad skin condition, constipation, I recommend this water. Now when I think about that human body is made up of 70% water, I realize that water is responsible for to safeguard the health. So, not just for me but I would like to urge everyone to drink this water to physically and mentally healthy.

Use experience of the functioning water

It was in a big trouble as my constipation was not getting cured. It was a difficult time for me due to my bowel movement. I used a different health food for about 2 months and there was a little improvement in the condition. the cost of using such health food was about 20 thousand per month, which was too much to sustain for a long time for my economical condition that I was in at that time. With the introduction of functional water, I started using this product. The result was seen the very next day I started drinking this water. In comparison to the health food that I was using before, the moistness of the stool was maintained and its motion out of the body was also improved. It is difficult for me to say how much my condition has improved with the use of this water for only one week. The moistness in the stool is maintained and I also feel easy to perform the bowel movement. I have decided to examine the results of its prolonged use and to see for myself all the benefits it has.

My second son, suffered from the condition of dry skin from 3 months of his birth. After the two years of his birth, he started suffering from itch of inside of elbow and knee which is specific to atopy. There was a scar like cut on the base of his ear. I used to give him a topical cream containing steroid and oral medicine for internal reform that were prescribed by the hospital. He still had bad condition when topical cream was stopped. I thought it was better not to use steroid as I heard about the side effects of steroid. Besides, he also suffered from constipation because of which he could not even defecate properly. He used to wake up at midnight crying. During these times, I heard about the water from Mr. Morikawa and I met president Yokoi and I started to give the water to my child. To be honest, I was dubious about this water. Even a drink containing dietary fiber and yogurt had no effect for his constipation, he could pass stool easily the next day. With the use of the water, the problem of constipation was solved without any pain or any other problem. the condition was improving day by day due to the effect of the water. But there were no special changes in the condition of the skin. But as his constipation was cured, I continued to give him the water every day and after about one month, I felt that the condition of his skin was also improving. His cheeks began to turn fluffy. Seeing this for the first time since his birth, I was extremely happy and loved him even more so. Now, we all four in the family drink the water continuously. My husband also suffered from itching allergies due to his medications. But now he uses only half of the medication after the using this water. He keeps drinking this water in the morning and evening. He hopes that he would not have to use any medicine at all. This water has become a part of our life. We cannot imagine our lives without it. My son specially, would like to thank President Yokoi very much..

I suffered from severe shoulder stiffness since my school days. As the years rolled by, with increased level of stress, my shoulder stiffness also worsened. Not only this, but I also suffered from headache and nausea as well. At the time of meeting president Yokoi, it had reached a peak level. I had sharp pain in the stomach. I had no appetite. In addition to that, due to the impact of hay fever, my skin was also at a bad state. At that time, I had the water and powdered green tea from Mr. Yokoi. I started using it from the same day. I stopped using cosmetic products that I use for makeup. I sprayed only this water on my face after washing my face. After 2-3 days my skins got smooth and the pain of my stomach disappeared. I am using the water continuously even after that. The shoulder pain has completely vanished. And even after a very hard day's work, I feel that there is less fatigue the next day.

For me the origin of my disease was the bathroom. During cleaning, the undiluted solution remained in hand that caused dermatitis and in the worse times, there is itch in my whole body and I can not even sleep at night. It continued to trouble me and could not even go to the work. Thinking it to be some disease related to my body, I got admitted to the hospital and started using various medicines after the check up. Not a single cause could be identified but my condition worsened as the affected area in my body went on increasing. On the other hand, I had another disease called emphysema for which I was under continued medication. I was taking both medicines even though I was in the state of over prescription. Even after all these, I began to lose appetite, I had no energy left in the body, the body also stiffened due to dermatitis. The itching increased too. I could not sleep at all. I had feared that the doctors would say that this disease will take long to heal. During such time, I took the water, started drinking it. After a few days, the itch was gone and I could sleep well after that. The condition of my body improved and even the doctor was surprised. Even today, I am continuing the water and green tea therapy.

My condition was getting really bad I was suffering from Pollinosis the condition of my skin was ragged. It was a really bad time for me. At that time I got this water from president Yokoi(I started drinking and also using the water on my face....). I was in a doubt whether this water would be that much effective to improve my condition. But now, I can not live without it. I started using the water that I took from Mr.president on my face. To my surprise, even the ragged skin changed, and after about two days it started to become moist and slick. It has been about 10 months since that day, I have not used any cosmetic product. My method for skin care is to wash my face and apply the water swash only, I do not use even foundation (cream) nowadays. All my skin troubles have disappeared, it has become slick and the color and complexion has changed too. Even for a man like me who used to visit the hospital 1~2times a month as I frequently suffered from stiff neck, headache and stomach problem and similar issues, I have not gone to the hospital even once after I started drinking this water. Now I do not have the problem of constipation and even my stiff neck is cured. Now I can work on the word processor in my computer and I do not have to face any trouble because of my stiff neck. My friends around me noticed the change in my skin and that I was much healthier now. I also gave them some water as well. They also felt the change in their skin they said that after applying the water, their skin became slick and shiny. They said that it also cured constipation and now there are more fans of this water appreciating its value and worth. And of course, even my parents are fans of this water. My father was suffering from high blood pressure and he was under continuous medication. After drinking this water his blood pressure is improving and he has reduced the medication. Also, my mother had a problem of constipation, this water has cured that too. All our health problems are cured by the use of this water, we are very surprised at the effect of this water, I express my sincere thanks and continue to give this water to all my family members. It is a waste if this water is used only inside the premises of the eco house, so I gave this water to all my relatives and friends who were suffering from different health issues, and now when I hear that the problems are cured, I feel very happy and content. I would really like to say thanks for having experienced the effect of this water on my body and for making me able to live a healthier life.
